Fair's Beauty

will be the greatest money-making PEACH grown in the South.

It's a LARGE YELLOW PEACH WITH BEAUTIFUL RED CHEEKS, THAT RIPENS FROM JUNE 5 TO 12. MAKING IT FROM 20 TO 30 DAYS EARLIER THAN ANY OTHER YELLOW PEACH THAT WILL SHIP.

FAIR'S BEAUTY, is a semi-cling peach, shows up even better than the famous Elberta variety, and RIPENS FROM 20 TO 30 DAYS EARLIER.

YOU CAN NOT FIND A PEACH IN THE UNITED STATES THAT HAS THIS SIZE, COLOR AND DELICIOUS FLAVOR THAT RIPENS WITHIN 20 TO 30 DAYS OF THIS WONDERFUL PEACH.

Every home owner, or orchard man, should have from one half dozen to 10,000 of these trees growing and be able to get the FANCY EARLY PRICES THAT THIS VARIETY WILL BRING 20 TO 30 DAYS BEFORE THE OTHER YELLOW PEACHES COME ON THE MARKET AND RUN THE PRICE DOWN.

We have some customers who are large fruit growers that have been wanting these trees by the 1000 ever since they saw the first fruit from the parent tree, which has produced three good crops at five years old. This is the first year that we have been able to put any of these trees on the market, and we will ONLY HAVE A LIMITED SUPPLY THIS SEASON, so you had better book your order now for what you will want while you can get them. Trees that will produce peaches with the COLOR, SIZE, QUALITY AND DELICIOUS FLAVOR that this variety will, will not last long, so you had better book your order today so you can get your orchard this Fall, and BE THE "EARLY BIRD," WHO ALWAYS GETS THE WORM.

REMEMBER WE CAN NOT FURNISH BUT A LIMITED NUMBER OF THESE TREES THIS SEASON

FAIR'S PEACH NURSERY,
R. W. Fair, Owner, Arp, Texas.

Letters from well known Texas Men after they had seen and eaten some of our Fair's Beauty Peaches:

Mr. R. W. Fair, Arp, Texas,
My Dear Mr. Fair:

The peaches you so kindly sent me arrived, and it is a pleasure to pronounce them most delicious in appearance and flavor. I think it would be a fine thing to propagate this fruit extensively. Its merits certainly are worthy of it. I am a thorough believer in pedigreed plants and fruits as well as in animals.

Thanking you for your courtesy, I am

Yours very truly,
FRED W. DAVIS,
Commissioner.

Mr. Davis is our Commissioner of Agriculture of the State of Texas.

Mr. R. W. Fair, Arp, Texas,
Dear Sir:

The box of Fair's Beauty Peaches came a day or so ago in good condition. It is a wonderful peach. If it will just bear every year it will be still more wonderful. Such great size, fine color and earliness, we have never expected to see combined all in one peach. When you place it on the market we want to test it in this part of the state.

Yours truly,
F. T. RAMSEY & SON,
By F. T. Ramsey.

Mr. Ramsey is the owner of the Austin Nursery and is as well posted as any man in Texas, as to the qualities requisite for a great peach.

ELBERTA—This is the greatest commercial peach grown. Ripens from July 5th to 10th. 70 per cent of our trees are of this variety.

AUGBERTA—Ripens about August 10th to 20th and is very much like the Elberta in looks but is a better flavored peach. It always sells for a good price. Freestone.

MIXON CLING—Ripens about August 1st. This is a large white cling with a red cheek. Very fine for making sweet pickles or for preserving.

STINSON OCTOBER—Ripens about October 1st to 10th. White with red cheek. One of the best all-round late peaches.

SPECIAL PRICES ON FAIR'S BEAUTY PEACH—This is a new semi-cling, yellow peach which has a beautiful red cheek and ripens about June 5th to 10th. It has a better flavor and is a better looking peach than the Elberta; also gets ripe from 20 to 30 days earlier. This is the first yellow peach that gets ripe that will stand shipping. Prices F. O. B. Arp, Texas: 100 or less, 1 to 2 ft., 40c each; 2 to 3 ft., 50c each; 3 to 4 ft., 60c each; 4 to 5 ft., 75c each; 5 to 6 ft., \$1.00 each.
